***Allowance***

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 13, 2009 has been entered.

***Amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brett J. Slaney (registration number 58,772) on May 4, 2009.

The application has been amended as follows:

In claim 1:

- a) Modify line 3, “, said method comprising the steps of:” as following: “, said method comprising: **using processor to perform** the steps of:”
- b) Modify element d), “d) determining if additional paths exist between said seed point and, if so, repeating step” as following: “d) determining if additional paths exist between said seed point **and said data point** and, if so, repeating step”

In claim 23:

- a) Modify element d), “d) determining if additional paths exist between said seed point and, if so, repeating step” as following: “d) determining if additional paths exist between said seed point **and said data point** and, if so, repeating step”

In claim 28:

- a) Modify line 3, “predetermined parameter, said method comprising the steps of:” as following: “predetermined parameter, said method comprising: **using processor to perform** the steps of:”

***Allowable Subject Matter***

3. Claims 2 and 8 are cancelled and claims 1, 3-7, and 9-32 are allowed.
4. The following is a statement of reason for the indication of allowable subject matter:

The present application comprises the following features in combination with other recited limitations, which the closest prior art of record and the references cited in form PTO-1449 taken either singly or in combination does not teach:

- for each data point in said dataset: i) determining a path from said seed point to said data point; ii) examining variations in a predetermined characteristic of other data points along said path; and iii) defining a confidence level representing connectivity from a respective data point to said seed point based on a function of said variations in said predetermined characteristic and a distance from said seed point along said path; d) determining if additional paths exist between said seed point and said data point and, if so, repeating step c) and selecting a path with a highest confidence level; and e) segmenting said structure by selecting data points with a required confidence level that said data points selected belong to the same structure as said seed point (independent claims 1 and 23).

- establishing a first number of data points expected to represent a segmented feature of said image; establishing said threshold value of a characteristic of said data set; determining a second number of data points meeting said threshold; comparing said first and second number of data points; and adjusting said threshold if said first and second numbers do not correlate (independent claims 28 and 30).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
